## What Will Wolfgang Bring to Oz?

**Global Kingdomisation** – Wolfgang will report what happens when Christians become Kingdom people – understanding Jesus as more than a Saviour, but also as acting King in the areas of sex, money, power and church. Having had his finger on the pulse of fresh Kingdom movements for many years, he will bring the 'big picture' of what God is doing globally, helping us to comprehend how we participate as well.

**Aussie Kingdom Realities** – we will be challenged not to 'sit and soak', but to wrestle with the challenges he will bring, to deal with cultural issues that effect the ways we strategize in mission and 'do church'.

**Kingdom Economics and the Starfish Principle** – Kingdom people are called to live in ways that not only counter the culture of the world – but live a prophetic alternative and model life in the Kingdom. This is not only true in the way we deal with money, finances and business, but also family, culture, education and politics. Jesus radically challenged the prevalent view of work and finance to conform to Kingdom realities, and Wolfgang will call us towards the same, redefining Kingdom reality in the area most watched by Kingdom outsiders – business.

**Kingdom Communities that Change the World** - Rather than a 'nuts and bolts' approach, we will examine how to move forward through a network of open, organic circles of believers in the Aussie setting. We will be challenged with the requirements of effectively in reaching our generation with an invitation to enter the Kingdom of Jesus Christ? Sometimes an outsider's perspective will help. Wolfgang will want to help us see fascinating new opportunities and open doors from out time together, and to take that with us to our sphere of influence.

**Wolfgang Simson is an excellent and challenging communicator. Be challenged! Do not miss this opportunity!**
